Save the Environment

4D Air Flow

QUIET OPERATION

- ✓ 3D Inverter-DC technology modulate the compressor's frequency and fans' speed to enhance the air-condition performance and ensure the real time adjustment of the motor speed and refrigerant flow according to the changing environment. Making the air-condition run at the most energy saving situation.

2 YEAR WARRANTY

5 YEARS COMPRESSOR WARRANTY

10 YEAR LIMITED WARRANTY

BUILT-IN SOLAR INVERTER **SOLAR PANEL**

ENERGY SAVINGS

- ✓ DC Brushless fan motor indoor and outdoor. Greatly reduced energy consumption and run with very low noise

3D-DC TECHNOLOGY

- ✓ DC Twin Rotary compressor

- ✓ Provide timely self-protection for the compressor, Electronic control and motor in case of abnormal circumstances and faults

GOLD FINS TECHNOLOGY

- ✓ Prevents deposition of corrosive salts and acids. improves the overall life of the air conditioners.
- ✓ Prevents the rusting of the coils thereby increasing the lifespan of the coils besides enhancing the performance of the air conditioner.
- ✓ Keeps the fins free of dust and debris
- ✓ Don't get clogged and air flow stays normal
- ✓ Titanium dioxide coating to form a waterproof shield over the evaporator
- ✓ Improve the heating efficiency in the Reverse Cycle models by accelerating the defrosting process.

BUILT-IN SOLAR INVERTER

- ✓ Sine wave inverter controller technology for inverter air-conditioner. Makes the compressor run at low frequency below 0.1Hz and improve the utilization of DC compressor by 13% compared with 120 DC inverter controller technology.
- ✓ MPPT efficiency. 99.9% DC to DC 10+years life design
