

Every day, care.

At Whirlpool, each appliance gives the proper care your family needs because we believe that every act of care, whether big or small, plays a huge role in turning ordinary moments into unforgettable memories.

Whirlpool®
Every day, care.®

U.S. HEAVY DUTY WASHER & DRYER

Heavy Duty Design

The outer tub is made from polypropylene, a hardwearing plastic finish, while the inner tub is designed with stainless steel or ceramic to prevent rust, chipping, and corrosion even after years of use.

Deep Water Wash

To ensure that all stains are removed, this option provides a deeper water fill for cases when the clothes are not completely submerged in water.

Flex Vane Agitator

A single agitator is placed in the center of the tub to rub against clothes and further break down dirt and stains.

Dual Action Agitator

The movement rotates the clothes from the top to the bottom of the agitator for a more thorough wash. This ensures that every corner of the clothes is clean and free from stains.

MAT20MN

15 kg. IEC Rated Capacity Commercial US Top Load Washer

- 7 Wash Cycles
- Deep Water Wash System
- Traditional Flex Vane Agitator
- Wash Temperature Selection

AccuDry™ Sensing System

Overexposure to harsh heat of the dryer can cause clothes to shrink. The AccuDry Sensing System helps thoroughly dry your clothes while maintaining its quality, therefore, increasing garment lifespan.

Wide-Opening Hamper Door

A wide-opening hamper door allows easy access to your clothes as you dry them, while the drop-down door provides added convenience by giving you room to fold clothes.

TOP LOAD FULLY AUTOMATIC WASHER

6th Sense™ Technology

The washer senses the laundry load and adjusts the amount of detergent, water, and time accordingly which in turn leads to energy savings – bringing you the best results in every cycle.

Inverter Direct Drive Motor

The motor is directly attached to the drum providing stability, durability, and efficiency during wash cycles. It also offers excellent sound management for peaceful laundry sessions at home.

Antibacterial Stainless Steel Drum

The stainless steel design increases the washer's resistance against bacteria during laundry sessions.

Hot Wash Technology

The Hot Wash Cycle heats water up to 60°C to remove bacteria, viruses, dirt, and odor that have accumulated on the clothes throughout the day.

InverterPlus Technology

To achieve maximum energy savings, the InverterPlus Technology lets every wash cycle to automatically adjust based on the internal load of the washer.

Auto-Dosing System

For optimum fabric care, the washer dispenses the perfect amount of laundry detergent at the right time based on the laundry load – helping you take out the hassle in every wash cycle.

TOP LOAD FULLY AUTOMATIC WASHER

ZPF Technology

Compared to other fully automatic washers that require at least 10 psi to function, the Zero Pressure Fill Technology lets the water fill the tub 50% faster even when the water pressure reaches as low as 2 psi.

Hard Water Wash

Hard Water Wash keeps the clothes free from damages caused by mineral deposits from hard water. It allows the washer to deliver 30% better wash performance and detergent action for cleaner clothes.

FRONT LOAD WASHER

6th Sense™ Technology

The washer senses the laundry load and adjusts the amount of detergent, water, and time accordingly which in turn leads to energy savings – bringing you the best results in every cycle.

InverterPlus™ Technology

To achieve maximum energy savings, the InverterPlus Technology lets every wash cycle to automatically adjust based on the internal load of the washer.

Fresh Care+™

After the cycle, this function creates gentle tumble movements combined with steam to prevent clothes from creasing, therefore, keeping them soft and fresh.

Stainless Steel Tub

The stainless steel design increases the washer's durability and allows it to withstand hard water and high spin speeds during laundry sessions.

Hot Wash Technology

The Hot Wash Cycle heats water up to 80°C to remove bacteria, viruses, dirt, and odor that have accumulated on the clothes throughout the day.

3D Sensor

The 3D Sensor is an intelligent stabilizer system with shock absorption to help reduce noise for peaceful laundry sessions any time of the day.

Seamless Tub

The seamless design reduces unnecessary friction between clothes and prevents fibers from getting caught during wash and dry cycles.

Drum Clean

The Drum Clean Cycle helps easily remove dirt residue on the inner and outer tub of the washer. It sanitizes the washer to prevent odor from clinging on to your clothes.

Shoe Dryer Rack

The rack is placed inside the washer to provide extra care for your shoes, preventing it from getting damaged during the drying cycle.

Anti-Bacteria Cycle

Besides removing excess moisture, the hot air from the dryer is used to disinfect and prevent bacterial growth on freshly-laundered clothes.

Maximum Laundry Space

Our front load washers can be stacked with the compatible tumble dryer making them perfect for small spaces. The stackable washer and dryer takes only half the space giving you more room to move around and do other chores in the laundry area.

TWIN TUB WASHER

Shockproof and Waterproof Control Panel

This feature protects the control panel and its components from getting damaged by water spills and shock throughout the washing and drying cycles.

Rust-Proof Plastic Body

The body of the washer is made out of rust-proof plastic so you are assured that it's durable and meant to last for many years.

Double Wall Lining

The tub is designed with a double-wall lining for maximum durability and protection.

3D Lint Filter

This filter collects lint during the washing cycle to ensure that the clothes come out fresh and clean after every wash.

- 5 Wash Cycles
- Hard Water Wash Cycle
- Pulsators
- 3D Scrubbers

MULTI-DOOR REFRIGERATOR & SIDE-BY-SIDE REFRIGERATOR

6th Sense Technology

Smart sensors detect the refrigerator's internal load as well as the ambient temperature. This allows the refrigerator to give an optimal cooling performance for long-lasting food freshness.

Zen Inverter Technology

This innovative technology minimizes noise levels and ensures uniform cooling inside the refrigerator with up to 50% less energy consumption.

Flexi Freeze Technology

The Flexi Freeze compartment can be programmed into three temperatures (Soft, Mild, and Deep Freeze) to let you control the cooling level based on what food you need to store.

Photosynthesis LED Light

The Photosynthesis LED Light imitates sunlight to let fruits and vegetables undergo photosynthesis for long-lasting freshness and nutrient preservation.

TOP MOUNT REFRIGERATOR

6th Sense™ Technology

Smart sensors detect the refrigerator's internal load as well as the ambient temperature. This allows the refrigerator to give an optimal cooling performance for long-lasting food freshness.

Microblock™ Technology

The antimicrobial material inside the crisper prevents growth of bacteria to guarantee food freshness for up to fifteen days.

Deep Freeze Technology

A powerful fan increases the speed and circulation of cold air inside the refrigerator, resulting into 80% faster cooling and 70% quicker ice-making.

Energy-efficient R600A Refrigerant

The eco-friendly R600A Refrigerant quickly absorbs heat inside the fridge, helping the refrigerator cool faster and function to its maximum capacity at the lowest operating cost.

AP636 W

37 m² Air Purifier

- 6th Sense Technology
- 6th Sense Power Shield Filtration System:
- Pre-Filter, HEPA Filter, Active Carbon Filter, Nano Photocatalyst UV Light
- Can filter particles from PM 2.5 to PM 0.3
- 306 m³/hr CADR rate
- 3.4/hr ACH
- 99.8% Tanning Efficiency
- Odor Sensor
- Dust Sensor
- Filter Cleaning Indicator
- Air Quality Level Indicator
- Reliable and Trusted with ECARF (EU) certified
- Dimension (h:w:d) 61.5 : 40 : 24.2 cm

MICROWAVE OVEN

Auto-Cook Function

This function is ideal for quick meal preparations as it removes the unnecessary guesswork by pre-setting the power level and cooking duration for your food.

Grill Function

Aside from defrosting and reheating, selected Whirlpool microwave ovens are equipped with Grill Function that allows you to sear and cook various meats while preserving their rich flavors.

Steam Function

Explore healthier way of cooking by immersing fish, vegetables, and other food in steam for better retention of nutrients and flavors while also preventing them from drying out.

Wide Variety

Whirlpool offers a wide selection of microwave ovens that are equipped with advanced features to cater to different household needs.

MWX201 XEB

20-liter Mechanical Microwave Oven

- 6 Power Level
- Defrost Function
- Mechanical Control
- Input Power: 700W
- Color: Black
- Dimension (h:w:d)
26.2 : 45.2 : 36 cm

MWX201 WH

20-liter Mechanical Microwave Oven

- 6 Power Level
- Defrost Function
- Mechanical Control
- Input Power: 700W
- Color: White
- Dimension (h:w:d)
26.2 : 45.2 : 36 cm

MWX201 MS

20-liter Mechanical Microwave Oven

- 6 Power Level
- Defrost Function
- Mechanical Control
- Input Power: 700W
- Color: Silver
- Dimension (h:w:d)
26.2 : 45.2 : 36 cm

MWX203 BL

20-liter Digital Microwave Oven

- 11 Power Level
- Auto-cook functions
- Defrost function
- Digital Control
- Input Power: 700W
- Color: Black
- Dimension (h:w:d)
26.2 : 45.5 : 35.2 cm

MWX203 ESB

20-liter Digital Microwave Oven

- 11 Power Level
- Auto-cook functions
- Defrost function
- Digital Control
- Input Power: 700W
- Color: Silver
- Dimension (h:w:d)
26.2 : 45.5 : 35.2 cm

MWX254 SS

25-liter Digital Microwave Oven

- 7 Power Level
- Auto-cook Functions
- Defrost Function
- Grill Function
- Digital Control
- Input Power: 900W
- Color: Stainless Steel
- Dimension (h:w:d)
28.1 : 48.3 : 40 cm

MWP253 SX

25-liter Digital Microwave Oven

- 7 Power Level
- Auto-cook Functions
- Defrost Function
- Grill Function
- Digital Control
- Input Power: 900W
- Color: Silver
- Dimension (h:w:d)
28.1 : 48.3 : 41.9 cm

MWP301 BL

30-liter Digital Microwave Oven

- 7 Power Level
- Auto-cook Functions
- Defrost Function
- Digital Control
- Input Power: 900W
- Color: Black
- Dimension (h:w:d)
30 : 53.9 : 39.8 cm

MWP305 ES

30-liter Digital Microwave Oven

- 7 Power Level
- Auto-cook Functions
- Defrost Function
- Grill Function
- Steam Function
- Digital Control
- Input Power: 900W
- Color: Silver
- Dimension (h:w:d)
30 : 53.9 : 39.8 cm

MWB208 ST

20-liter Digital Microwave Oven

- 7 Power Level
- Auto-cook Functions
- Defrost Function
- Grill Function
- Digital Control
- Input Power: 700W
- Color: Stainless Steel Trim, Black Front
- Dimension (h:w:d)
30.4 : 45 : 33.3 cm

COOKING RANGE

Big Oven Capacity

The large oven capacity provides versatility in cooking as you can fit in food of different sizes – from delicious treats like cake and cookies to savory dishes like steak and chicken.

Sabaf Burner

Each Whirlpool cooking range is equipped with Sabaf gas burners that provide excellent flame distribution, helping you save up to 10% on gas consumption compared to normal burners.

Safety Valve

To ensure a safe cooking environment, the safety valve on the stove and the oven prevents gas leakage by shutting off the gas supply as soon as the flame is cut off.

Cast Iron Pan Support

Each gas burner is equipped with a cast iron pan support that can withstand high heat during cooking sessions. It also provides extra durability when using heavy pans and other cookware.

ACG540 IX

**50 cm. Cooking Range
4 Gas Burners**

- Sabaf Burners
- Electric Ignition
- Cast-Iron Pan Support
- Oven Light
- Burner & Oven Safety Valve
- Double Glass Oven Door
- 53 L Oven Capacity
- Gas Oven + Gas Grill
- Stainless Steel Cooktop
- Dimension (h:w:d)
90 : 50 : 60 cm

ACG531 IX

**50 cm. Cooking Range
3 Gas Burners
+ 1 Electric Hot Plate**

- Sabaf Burners
- Electric Ignition
- Cast-Iron Pan Support
- Oven Light
- Rotisserie
- Burner & Oven Safety Valve
- Double Glass Oven Door
- 53 L Oven Capacity
- Gas Oven + Gas Grill
- Stainless Steel Cooktop
- Dimension (h:w:d)

- Sabaf Burners
- Electric Ignition
- Cast-Iron Pan Support
- Oven Light
- Rotisserie
- Burner & Oven Safety Valve
- Double Glass Oven Door
- 73 L Oven Capacity
- Gas Oven + Electric Grill
- Stainless Steel Cooktop
- Dimension (h:w:d)
90 : 60 : 60 cm

Whirlpool's Artisan Cooking Ranges are equipped with **premium burners**, **multifunctional oven**, and **safety** features making them the perfect partner in the kitchen. The combination of a stove and an oven not only saves space but also allows multitasking and flexibility while cooking.

BUILT-IN HOB

Safety Valve

To ensure a safe cooking environment, the safety valve on the stove prevents gas leakage by shutting off the gas supply as soon as the flame is cut off.

Cast Iron Pan Support

Each gas burner is equipped with a cast iron pan support that can withstand high heat during cooking sessions. It also provides extra durability when using heavy pans and other cookware.

Stainless Steel Cooktop

The stainless steel material makes the cooktop durable and resistant to scratches, dents, and high heat so you can be assured that it will last even after many years of use.

Tempered Glass

The tempered glass material is perfect for modern and functional kitchens because not only does it increase the aesthetic appeal of your kitchen but also makes cleaning up easier.

AKC604E IX 60 cm. Built-in Hob 4 Electric Hot Plates

BUILT-IN OVEN

Convection Fan

The convection fan, paired with an exhaust system, circulates hot air inside the oven cavity to cook food evenly and quickly – helping you get better results from your recipes.

Cooling Fan

The top of the oven is designed with a vent where cool air comes through to prevent the components outside the oven cavity from overheating. This makes the control panel and door safe to touch while the oven is in use.

- 57 Liters Oven Capacity
- Rotisserie
- Cooking Timer
- Electric Oven
- Convection Oven
- Cooling Fan
- Triple Glass Door
- Black Enamel Cavity
- Stainless Steel
- 2560W
